Little Apple Cars Service Commitment

Excellence at every turn... and every straightaway

Our dealership's primary goal is to satisfy every customer at every opportunity. You visit our service department regularly, and we have developed a number of ways to make your visit more comfortable and informative. We know that you want straight answers, and that's the only way we will deliver it to you.

We understand that your knowledge of your vehicle and its necessary repairs is probably not on par with the understanding that your technician has. In order to be sure that his findings and reporting is as clear and concise as possible, we use this Vehicle Information Booklet as a tool to help us communicate your vehicle's condition to you.

Our technicians are the most qualified to work on your vehicle. They have trained extensively, and partake in continuing education regularly to be sure that they are up to date on any changes and improvements handed down from the manufacturer. Our service advisors strive to make your experience with us a pleasant one. They are here to attend to your automotive needs as well as communicate effectively with your technician and you.

Please make yourself comfortable in our waiting area. Watch some TV, use your laptop with our free WI-FI access or just relax and enjoy the quiet. Our courtesy shuttle can take you shopping, to a movie or home if you prefer.

We appreciate your business and will continue to strive for excellence in everything we do for you.

Multi-Point Inspection Checklist

Did your Service Advisor review the results of this multi-point inspection checklist with you?

☒ Checked and OK at this time ☐ May Require Future Attention ☐ Requires immediate attention

Vehicle/Dealership Information

☒ ☐ ☐ Year/Make/Model **'21 Nissan Kicks**
☒ ☐ ☐ Stock Number **P7952**
☒ ☐ ☐ Exterior Color **White**
☒ ☐ ☐ Interior Color **Black**
☒ ☐ ☐ VIN **3N1CP5BV1ML529970**
☒ ☐ ☐ Date Aquired **03/11/24**
☒ ☐ ☐ Date Inspected **03/12/24**
☒ ☐ ☐ Mileage **56849**

[VIN & Dealer Code Check]

☒ ☐ ☐ Run and print Vehicle History Report and attach
☒ ☐ ☐ Run a Techstream Health Check
☒ ☐ ☐ Check outstanding Recalls and SSCs

[Road Test]

☒ ☐ ☐ Cold engine operation performs properly
☒ ☐ ☐ Throttle operates properly during cold start
☒ ☐ ☐ Vehicle operates properly during warm-up conditions
☒ ☐ ☐ Engine performs properly during operating temperature
☒ ☐ ☐ Engine reaches normal operating temperature
☒ ☐ ☐ Engine fan(s) operate properly
☒ ☐ ☐ Brake pedal free play and travel within specifications
☒ ☐ ☐ No abnormal vibrations and noises during brake applications
☒ ☐ ☐ ABS operates properly
☒ ☐ ☐ Parking brake operates properly and within spec
☒ ☐ ☐ Seat belt material condition
☒ ☐ ☐ Seat belts operate properly
☐ ☐ ☐ Transmission/clutch operates smoothly
☒ ☐ ☐ Auto transmission operates properly during cold temp
☒ ☐ ☐ Auto transmission operates properly during operating temp
☒ ☐ ☐ Steering normal in lock-to-lock turning
☒ ☐ ☐ Steering wheel centered in straight-line driving
☒ ☐ ☐ Vehicle tracks and drives straight on level surface
☒ ☐ ☐ Tilt and telescope steering operates properly
☒ ☐ ☐ Front wiper operates properly in all modes
☒ ☐ ☐ Rear wiper operates properly in all modes
☒ ☐ ☐ Washer fluid sprays properly

- ☒ ☐ ☐ Wiper blades clear glass properly
- ☒ ☐ ☐ Wiper blades return to correct position when off
- ☒ ☐ ☐ Speedometer functions properly
- ☒ ☐ ☐ Odometer registers mileage in every mode
- ☒ ☐ ☐ Cruise control operates properly
- ☒ ☐ ☐ Heater operates properly
- ☒ ☐ ☐ A/C operates properly
- ☒ ☐ ☐ No abnormal noise or vibration from engine
- ☒ ☐ ☐ No excessive wind or road noise
- ☒ ☐ ☐ No abnormal tire vibration or wheel shimmy
- ☒ ☐ ☐ No abnormal squeaks/rattles within interior

[Frame, Structure & Underbody]

- ☒ ☐ ☐ Frame/Unibody condition
- ☒ ☐ ☐ Panel alignment and fit
- ☒ ☐ ☐ Lower body and underbody condition
- ☒ ☐ ☐ Suspension-related items for proper performance
- ☒ ☐ ☐ Inspect struts/shocks for leaks and wear
- ☒ ☐ ☐ Power steering system operate properly no leaks
- ☒ ☐ ☐ Wheel covers secure and reasonably free of damage
- ☒ ☐ ☐ Tires inflated to spec / free of defect and damage
- ☒ ☐ ☐ Min of 5/32" tread depth remaining
- ☒ ☐ ☐ All tires of same brand, model, size and rating
- ☒ ☐ ☐ Brake calipers and lines operate properly no damage
- ☒ ☐ ☐ Brake system contains all needed equipment
- ☒ ☐ ☐ Brake pad/shoe linings have minimum of 50% remaining
- ☒ ☐ ☐ Brake rotors/drums in spec with no abnormal grooving or color
- ☒ ☐ ☐ Exhaust system properly secured with no leaks
- ☒ ☐ ☐ Engine/trans mounts with no signs of wear
- ☒ ☐ ☐ Drive/axle shafts operate properly with no damage
- ☒ ☐ ☐ CV joints/boots operate properly with no signs of wear
- ☒ ☐ ☐ Inspect engine for fluid leaks
- ☒ ☐ ☐ Inspect transmission case and pan for leaks
- ☐ ☐ ☐ Differential fluid level correct with no leaks

[Emissions & State Inspection]

- ☒ ☐ ☐ Perform emissions test and/or state inspec, if req

[Under Hood]

- ☒ ☐ ☐ Drive belts and hoses free of cracks and damage
- ☒ ☐ ☐ Confirm under-hood labels and decals
- ☒ ☐ ☐ Air filter in good condition
- ☒ ☐ ☐ Battery has no visible damage
- ☒ ☐ ☐ Perform battery check with Midtronics GR8
- ☒ ☐ ☐ Battery posts and cables free of corrosion and damage
- ☒ ☐ ☐ Battery properly sized and secure

- ☒ ☐ ☐ Charging system operating properly and within spec
- ☒ ☐ ☐ Engine coolant level with spec
- ☒ ☐ ☐ Coolant specific gravity set to -31 deg F
- ☒ ☐ ☐ Change engine oil and filter
- ☒ ☐ ☐ Check for evidence of oil gel
- ☒ ☐ ☐ Oil, brake, clutch, trans, transf case, power steering, washer fluid at proper levels
- ☒ ☐ ☐ Under hood fluids clear and uncontaminated

[Functional & Walkaround]

- ☒ ☐ ☐ Owner's manual and TCUV Warr Supplement
- ☒ ☐ ☐ Fuel gauge operational
- ☒ ☐ ☐ Battery voltage gauge operational
- ☒ ☐ ☐ Engine temperature gauge operational
- ☒ ☐ ☐ Horn operates properly
- ☒ ☐ ☐ Airbag(s) present with no evidence of deployment
- ☒ ☐ ☐ Headlights properly aligned
- ☒ ☐ ☐ High and low beams operate properly
- ☒ ☐ ☐ Tail lights operate properly
- ☒ ☐ ☐ Side marker lights operate properly
- ☒ ☐ ☐ Backup lights operate properly
- ☒ ☐ ☐ License plate lights operate properly
- ☒ ☐ ☐ No cracked or broken lenses of exterior lights
- ☒ ☐ ☐ Instrument panel/warning lights operate properly
- ☒ ☐ ☐ HVAC panel/lights operate properly
- ☒ ☐ ☐ Instrument panel dimmer operates properly
- ☒ ☐ ☐ Turn signals operate properly and self-cancel
- ☒ ☐ ☐ Hazard flashers operate properly
- ☒ ☐ ☐ Rear-view interior mirror operates properly
- ☒ ☐ ☐ Exterior mirrors' operation and condition
- ☒ ☐ ☐ Remote mirror control operates properly
- ☒ ☐ ☐ Glass free of cracks, stars and large chips
- ☒ ☐ ☐ Window tinting clear and conforms to local reqs
- ☒ ☐ ☐ Dome/courtesy lights operate with door cycles
- ☒ ☐ ☐ Windows operate properly
- ☒ ☐ ☐ Window locks operate properly
- ☒ ☐ ☐ Power windows operate from all switches
- ☒ ☐ ☐ Audio/Cassette/CD/Aux system working properly
- ☒ ☐ ☐ Speakers do not rattle at high volume and function properly
- ☒ ☐ ☐ Antenna is present and functional
- ☒ ☐ ☐ Clock operates properly
- ☒ ☐ ☐ 12v ACC power output operates properly
- ☐ ☐ ☐ Ashtrays (if equipped) are present and operate properly
- ☒ ☐ ☐ Headliner, sun visors, dash pad, upholstery, console, cup holders, trim panels and carpet are in place and in good condition

Additional Service Recommendations

In the process of inspecting your vehicle for safety and reliability, your technician **Noah S** made the following observations and recommends that you do the necessary repairs to resolve these issues.

 Red: requires immediate attention.

 Yellow: in need of attention soon.

Cabin Air Filter Replacement

Item Description

Prevents dirt, pollen, and other debris from entering the passenger compartment through the climate control system.

Reason

If not replaced, the air conditioning system will develop an odd odor. The air conditioning filter, also known as the cabin filter, removes dust and pollen from entering the car cabin.

Cabin Air Filter

Engine Air Filter Replacement

Item Description

The air filter prevents dirt and debris from entering the engine, which could otherwise cause premature engine wear.

Reason

If not replaced, poor gas mileage and premature engine wear will result.

Air Filter

Windshield Chip Repair: Chip with small hairline crack in center of windshield. Several very small chips.

Item Description

Windshield chip repair is a fast and convenient way to take care of the annoying but unavoidable rock chips.

Reason

Every rock chip will eventually crack out, and it is hard to determine how long any chip can hold until

the damage is too large to repair, but if that little chip spreads, it will cost you a new windshield.

***Tires - 2: 205/60R16 - Front tires <5/32**

Item Description

A tire is a round component made of rubber and reinforced with chords or belts made of several choices of materials. The tire is filled with air or nitrogen and surrounds a wheel's rim to transfer a vehicle's load from the axle through the wheel to the ground and to provide traction on the road's surface. With only four small contact patches between you and the road you want them to be as good as they can possibly be.

Reason

According to most states' laws, tires are legally worn out when they have worn down to $\frac{2}{32}$ " of remaining tread depth. As a tire wears it's important to realize that the tire's ability to perform in rain and snow will be reduced. With $\frac{2}{32}$ " of remaining tread depth, resistance to hydroplaning in the rain at highway speeds has been significantly reduced, and traction in snow has been virtually eliminated. If rain and wet roads are a concern, you should consider replacing your tires when they reach approximately $\frac{4}{32}$ " of remaining tread depth.

If snow-covered roads are a concern, you should consider replacing your tires when they reach approximately $\frac{6}{32}$ " of remaining tread depth to maintain good mobility. Because tread depth is such an important element for snow traction, winter tires usually start with noticeably deeper tread depths than typical All-Season or summer

Tires

tires. Some winter tires even have a second series of "wear bars" molded in their tread pattern indicating approximately 6/32" remaining tread depth to warn you when your tires no longer meet the desired tread depth.

***Alignment: Rear tires 8/32 with chopped wear on inside edges.**

Item Description

Alignment is one of the key maintenance factors in getting the most wear and performance from your tires. In addition, wheel alignment provides safe, predictable vehicle control as well as a smooth and comfortable ride that's free of pulling or vibration. Today's modern suspensions require a precise four-wheel alignment that can only be achieved through a modern alignment system. This applies to both front and rear wheel drive vehicles. Aligning a car or truck involves the adjustment of the vehicle's suspension, not the tires and wheels. The direction and the angles that the tires point in after the alignment is complete, however, are critically important. There are four factors involved in setting the alignment to specification: caster, camber, toe and ride height.

Reason

If not done, you will see uneven or rapid tire wear, pulling or drifting away from a straight line, and wandering on a straight level road. It can also cause extra load on certain suspension components, making them more likely to fail.

Diagnostic: Thumping type rattle from right rear seat area while driving. Possibly from right seat back latch. Noise is gone with seat back folded down.

Item Description

Diagnostics when referred to in an automotive sense is the various testing done on the automobile to ensure safety and proper engine functioning. These tests are done with different sensors, computers and machines to establish a "cause and

Alignment

effect" relationship between what is working and what is not working with the automobile. The forms of diagnostics can range from brakes, to air conditioning, to suspension and many more.

Reason

Diagnostic work is often needed in order to fully examine the vehicle in order to understand what is needed to fix a specific problem. Over the years, the technological advances associated with automobile diagnostics have saved technicians countless hours of inch by inch vehicle inspection that can now be done through the work of various computers. Diagnostics is a crucial step in the repair of any vehicle.
